Environmental labelling of packaging according to Legislative Decree 116/2020

In order to comply with the European Directive UE 2018/851 on waste and the EU Directive 2018/852 on packaging and packaging waste, OMF Srl ensures that the addressees of its packaging are provided with the information required to recognize the materials used and to enable their disposal as required by the laws in force. For certain parts of packaging where information regarding the materials used is not yet available, OMF provides the following table which reports, for each material used for packaging, the reference to the descriptions indicated by the European directives, in order to enable correct disposal. The rules for the disposal of packaging waste are outlined hereunder:

- check the possibility of reusing packaging;
- empty the packaging before placing it in the collection bin;
- check the marking on the packaging for correct disposal;
- reduce the volume of packaging;
- check the regulation of your local authority.

MATERIALS USED FOR PACKAGING

Internal code	Description	Material code (Decision 129/97/EC)
VCIB00615 BAGS VCI2000 mm 220+(2x100)x400 50 micron	Gusseted bags in polyethylene box	LDPE4
VCIB00926 BAGS VCI2000 mm450+(2x175)x600 40 micron	Gusseted bags in polyethylene box	LDPE4
VCIB3 - VCI2000 mm 1250+(2x425)x1300 70 micron	Gusseted bags in polyethylene box	LDPE4
C670141010 VCI2000 mm 820+(2x310)x1170 100 micron	Gusseted bags in polyethylene box	LDPE4
